Dear David,

As you know, I personally have requested that the TASC Team come to our community. Dr. Wiseman was not able to attend that meeting. He has, however, requested that this be agendaized for discussion by our full Board.

If it is at all possible, could you please bring at least 25 brochures on TASC to the EPA meeting on July 15th that could be distributed to our full Board. If you have more, we could put them out for the community on the night of the August 5th WHNC Board meeting. Dr. Wiseman could also put them out at the SSMAC meeting on July 22nd.

Again, I am requesting the TASC Team involvement in the SSFL community. But I am only speaking as an individual - I cannot speak for the WHNC Board.

Thank you.

Chris Rowe

Chris --

Luis has been in the field, so I'm responding for him.

EPA will not be attending the Aug 5th meeting, however we would like to hear comments from the West Hills Neighborhood Council Board members.

We hope to have moved our internal process forward enough so that we can provide an update by the July 29th meeting, but it's not certain that EPA will be in a position to talk much about TASC at our July 19th meeting. We still have to close a communication loop or two with EPA HQ, and evaluate the written requests and correspondence from various community groups.

I'll be out of the office tomorrow, but back in on Monday.

Please have a good weekend.

-- Dave

Dear Mr. Garcia - Bakarich,

I tried to reach both you and David Cooper today. I really want the West Hills Neighborhood Council Board to weigh in on the TASC issue. I hope that you could come to our full Board meeting on August 5, 2009.

I would need to have an answer to that ASAP to get you on our agenda.

Thank you so much.

Chris Rowe
